

# User Acceptance Testing (UAT) Template

Date	17 February 2025
Project Name	Explore with AI custom Itineraries for your next journey

**Project Overview:**

Project Name: Explore with AI custom Itineraries for your next journey.

Project Description: "Explore with AI Custom Itineraries for Your Next Journey" is an AI-powered travel planning platform that generates personalized travel itineraries tailored to individual preferences, budgets, and schedules, saving time and reducing travel stress.

Project Version: 1.0

**Testing Scope:**

Testing scope includes functional, usability, performance, security, and compatibility testing to ensure accurate, personalized itineraries and seamless user experience.

**Testing Environment:**

Testing environment: Cloud-based staging environment mimicking production, with test data, mock APIs, and access to AI services.

**Notes:**

- Ensure that all test cases cover both positive and negative scenarios.
- Encourage testers to provide detailed feedback, including any suggestions for improvement.
- Bug tracking should include details such as severity, status, and steps to reproduce.
- Obtain sign-off from both the project manager and product owner before proceeding with deployment.
